## MFTC SESAME SEEDS

Our company specializes in providing high-quality sesame seeds grown across various regions of Pakistan, catering to the needs of businesses across the world.

## Why Choose Us?

- Large infrastructure with high-tech machinery.
- 3 fully-functional processing plants with production capacity of 2.5 tons per hour each.
- Long-standing reputation for delivering high-quality grains in the market.

## What We Offer

At MFTC Sesame Seed Division, we embrace cutting-edge technology for sesame seed processing. Our state-of-the-art machinery ensures top-quality seeds.

In the initial cleaning phase, advanced equipment meticulously removes impurities, enhancing safety and quality.

Pre-cleaning further refines the seeds, setting the stage for precision color sorting, powered by our advanced technology.

Through meticulous examination of each seed, our machinery guarantees uniformity, eliminating off-spec seeds.

These processes not only enhance visual appeal but also meet the highest industry standards.

## Commitment To Quality

Our unwavering commitment to excellence and reliability, driven by advanced machinery, positions us as a trusted source for premium sesame seeds, setting us apart in the industry.

These processes are integral to our mission to provide excellence and reliability in every sesame seed we deliver, ensuring satisfaction for our valued partners.
